Full stack web developer leveraging my sales background to build a more client friendly web experience. I have earned a certificate in full stack development from Southern Methodist University, with my skills in JavaScript, CSS, MongoDB, Node, Express, React, and responsive web design. Passionate about approaching programming challenges from different angles and collaborating with others to create meaningful web applications. Excited to develop responsive websites. With each project, my aim is to best engage my audience for an impactful user experience. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

Technical Skills

Frontend: *HTML5, CSS3, JQuery, Javascript, Bootstrap, ES6, MVC, REST API, React*

Backend: *MySQL, MongoDB, Express, Node, GraphQL, IndexedDB*

Professional Experience

South Methodist University   *February 2022 – August2022*

Coding Bootcamp   *Dallas, Texas*

List-Hub | *https://github.com/TonyT504/list-hub* | *https://stormy-ravine-51670.herokuapp.com*

My role in the project was to set up the template for the site, set up and connect the api routes, connect the server, set up and connect the database, and build the shopping cart.
- *This is an e-commerce site that uses React to update the quantity of items, the purchase price, and categories while allowing a secure login and signup for new and existing users*
- *This site was built to showcase my ability to work within a team while utilizing the MERN stack.*
- Tools/Languages: HTML, CSS, Javascript, React, JWT, MongoDB, Node, Express, Stripe, GraphQL, IndexedDB

The Huntsmen | *https://github.com/jvit1985/huntsmen* | *https://huntsmen.herokuapp.com*

My role in the project was to get the API to pull the data into the project and append to the page. I also set up the routes that change on page click, and the MySQL database.
- *This is a social media app for outdoor enthusiasts*
- *This site allows those interested in the outdoors to connect and discuss anything that they want while planning their next adventure to any state park.*
- Tools/Languages: HTML, CSS, Javascript, bcrypt, Bootstrap, MVC, MySQL, 3rd party API

Budget Tracker | https://github.com/jvit1985/budget-tracker | https://warm-reef-32239.herokuapp.com

My role in the project was to build the entire site from scratch, front and back end and get the site functional and deployed.
- *This app allows users to track deposits and expenses while online and holds the transactions when the user is offline to be put in once back online*
- *This project accomplished my goal of building a functioning site with IndexedDB that allows users to enter transactions and saves to a MongoDB database while using service workers and IndexedDB to allow offline functionality.*
- Tools/Languages: Node, Express, Javascript, HTML, CSS, MongoDB, IndexedDB, Service Workers

TexasLending.com   *August 2021- June 2022*

Mortgage Loan Originator   *Dallas, Texas*

- *Maintained a pipeline of over 30 clients in various stages of the refinance process, from initial application to funding.*
- *Communicated with other departments to ensure that client expectations and satisfaction were obtained.*
- *Funded between 2 million to 3 million in loans monthly while using multiple systems to ensure proper procedures were followed and communication was prioritized.*

Mr. Cooper   *August 2020- August 2021*

Mortgage Loan Originator   *Lewisville, Texas*

- *Advised clients on various products, as well as advantages and drawbacks of each option in order to tailor available products to clients' wants and needs.*
- *Provided cross department communication in order to maintain a smooth and efficient experience for all clients throughout the mortgage process.*

Education

Middle Tennessee State University, Murfreesboro, Tennessee

Bachelor of Business Administration

Southern Methodist University, Dallas, Texas

Certificate of Completion of Full Stack Developer Bootcamp
